## Digital Imaging Group Eastern Centre

## Creative Photography Lecture

### Mark Mumford FRPS

Presents

'Artistic Background'  
'Interest in Surrealism'  
'Improving Images'

Born in Swansea in 1950, Mark has been an artist, graphic designer and photographer and is now enjoying his retirement making digitally manipulated surreal works of art and giving talks to camera clubs nationally.

He has been described as *a master of his craft* by those that know a thing or two about both photography

and art and is strongly influenced by M.C. Escher and Salvador Dali.

Mark will present two lectures about his artistic background and his interest in surrealism along with his current surreal photographic art. The second lecture is about improving images and both talks are somewhat different to what are usually seen in camera clubs.

Both lectures will prove to be interesting and informative and have been given high acclaim by those that have attended in the past.
